LED REPLACEMENT POOL LIGHT

We mastered it in Australia and now we're taking it to the World! The ATOM Retro series for AQUA/LAMP® is the first in a line of replacement pool light products designed to simply and easily replace existing pool lights.

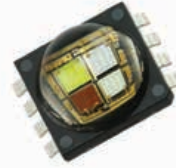

Using our patented detachable cable system and innovative adapter plate design the ATOM Retro replaces existing pool lights in minutes, without the need to replace cables or transformers. Being extra safe low voltage; you don't even need to be an electrician! Anyone can replace their pool light and the results will amaze you!

DETACHABLE PLUG

Detachable plug system for simple installation & winterization.

MULTIPLUS LED

With the MULTI PLUS anything is possible. Change colours via a wall switch or integrate with major pool controllers. All while experiencing stunning colours and true 4000k white.

INTELLIGENT DESIGN

The innovative AQUA/LAMP® adapter plate makes replacing your old light easy! Simply twist-lock the adaptor plate onto the existing rim for an instant transformation!
